The purpose of this tournament is to promote social and physical activities among the Asian American communities fostering a more active, and healthy lifestyle. This tournament will encourage intergenerational and cross-cultural interaction and dialogue between Asian immigrants and non-Asian participants, as well as, between older and younger generations of ping-pong players.

As part of our signature series "East Meets West Cultural Experience", we will be completing "The Power of Ping-Pong" a documentary film project that began 2018. The objective of the film is to learn more about the lives of the Asian immigrant community and beyond through the lens of ping-pong playing, and player engagement and story-telling. Please join us and bring your story to become a part of this incredible documentary!
